

## Become a "Local Hero": Join the Wildern G.O.A.T. Boys Project

At Wildern, we are excited to launch the **G.O.A.T. (Greatest Of All Time) Boys Project**—a program designed to pair Year 9 and 10 students with positive male mentors from our local community to build confidence, aspiration, and strong character.

### Core Goals

- **Foster Resilience & Identity:** Provide positive male role models to counter toxic online influences and build self-esteem.
- **Improve Engagement & Behaviour:** Re-engage boys in school life through personal ownership and guidance.
- **Deliver Community Value:** Drive real-world impact through collaborative group projects.

### Who We Need

We welcome men from all backgrounds—tradespeople, entrepreneurs, creatives, athletes, corporate professionals, and community leaders. No teaching background is required. We simply ask for:

- Good listeners, passionate about encouraging young people.
- A willingness to complete a DBS check and pre-launch Safeguarding (KCSiE) training.

### How It Works & Time Commitment

- **Session Structure:** 10 monthly 1.5-hour evening sessions from January to November (with a break in August).
- **What to Expect:** Each session features an inspirational keynote aligned with our core goals, followed by collaborative project work alongside students and fellow mentors.
- **Celebration Event:** The program finishes in December with a special celebration and project showcase highlighting student growth and achievements.
- **Safe & Focused:** All sessions are fully supervised, with no contact between mentors and mentees outside scheduled meet-ups.

### How to Get Involved

Help us make a lasting difference in a young person's life. **Please complete our [Google Form](#) to express your interest.**
