

DEP/jr
December 2021

Dear Parent/Guardian

The Science Department will be running clinics, to allow Year 10 students to consolidate their knowledge of parts of the GCSE course, by focussing on particular key areas identified from previous exams as being 'problem areas'. These include both practical and knowledge based elements.

The key areas being offered are as follows:

05/01/2022 - Osmosis (B1)
11/01/2022 - Exothermic and Endothermic reactions (C5)
12/01/2022 - Electrolysis (C4)
18/01/2022 - Radioactivity (P4)
19/01/2022 - Specific heat capacity (P1)
08/02/2022 - Communicable diseases (B3)
09/02/2022 - Microscopy & Microbiology (B1)
15/02/2022 - Electrolysis (C4)
16/02/2022 - Rates of reaction (concentration) (C5)

Time: 3.00pm – 4.00pm Room 317

Students are able to sign up for these sessions by completing the following google form:

[Science Clinic](#)

If you would like to discuss this further, please do not hesitate to contact me.

Thank you in anticipation of your support.

Yours faithfully

Mrs D Penney
Director of Learning - Science
