

Dear Parents and Carers,

We would like to hear from parents and carers of children and young people with Special Educational Needs and Disabilities (SEND), about your experiences and perception of educational support within Hampshire. Please complete the survey [here](#) if you are the parent or carer of a child or young person who either has an Education, Health and Care Plan or who is supported at SEN Support level in their educational setting.

As a Local Authority we are working with the Department for Education within a programme called Delivering Better Value (DBV) in SEND. Through this programme we aim to ensure that educational support for children and young people with SEND is both high quality and sustainable.

We will use the information gathered from this survey to ensure that we understand and include the experiences of parents and carers within this work. Alongside the views of other local partners, we will use these perspectives to collectively inform our decisions and shape change in Hampshire.

Thank you for your support.

Jenni Davies
