19 January 2023

Dear Parent/Carer

Today we had a lockdown practice as part of our required evacuation drill procedures that we complete over time each year. These procedures include fire drills, evacuation practice and lock down.

We use lock down for a number of reasons, for example if an intruder were on site, a chemical or gas leak in the locality, a flood and if we have an injury on site that requires an ambulance during transition or break times.

Our students responded really well to today's drill which took place as planned during Period 5 and were a real credit to the school.

Yours faithfully

Mr M Chance
Deputy Headteacher
