Dear Parent/Guardian

Next week, we will be celebrating British Science Week. As part of Year 7's Science lessons, we have planned an opportunity for students to take part in 'Kitchen Chemistry'. If they would like to join in, they will need to have the ingredients for at least one of the experiments in the attached document.

Do not worry if you cannot get hold of these ingredients, there will be videos of the experiments available for students to watch.

Yours faithfully

Miss M Barton  
Assistant Director of Learning - Science
