Dear Parent/Guardian

Re: Mathematics Revision Guides

The Wildern School Mathematics Department are pleased to offer the opportunity for all students to purchase a discounted 'Edexcel GCSE Mathematics Revision Guide' through the school published by Pearson.

The revision guide is written specifically for the new GCSE Mathematics course. It can provide an excellent resource for revision and learning throughout Years 9, 10 and 11. It is available for both the Higher and the Foundation tier of entry and your child's Mathematics teacher will be able to advise which level should be purchased.

The cost of each revision guide is £3 and all money should be taken to the school Finance Office and a receipt collected. Your child can then collect their revision guide from Mr Marshall in Room 308.

If your child has been identified as 'Pupil Premium', they are entitled to a copy free of charge. To collect this, they need to go to the Finance Office and let them know they are a Pupil Premium student looking for a Maths Revision Guide. The Finance Office will record who they are and they will then be given a completed reply slip which can then also be taken to Room 308 and exchanged for a revision guide.

In addition to the revision guide, the school also has a limited number of 'Practice Paper Plus' books. These are different to resources used in lessons and so some students like the opportunity to practice exam style questions in their own time. The school are offering these at £3 as well and they can be ordered and collected along with the revision guides. We would usually not recommend the use of these until later on in the GCSE course when students have covered a wider range of content.

Whilst it is not compulsory that students purchase any of the revision material, the revision guide especially is thoroughly recommended to aid their learning and revision across their GCSE studies.

Yours faithfully

Mr W Sleeman
Director of Learning for Mathematics
