

Year 9-11 December E-Safety Newsletter

In the News:

[Teens take Instagram seriously - and it's costing some of them their personal data](#) - teenagers all around the globe are switching to business accounts due to the benefits of stat tracking but in this process are accidentally releasing their emails and phone numbers.

<https://www.independent.co.uk/topic/online-safety> - Some e-safety experts are saying that parents should play online video games with their children. This will bond the two and prevent people online from scamming, cyber bullying and even just saying mean things about the. Parents will then see this and take action.
